GOVERNMENT OF LIBERIA Millennium Challenge Account Liberia (MCA-Liberia)

FINAL PROCUREMENT NOTICE

The Millennium Challenge Corporation (MCC) and the Government of Liberia signed a Compact Agreement on October 2, 2015 in the amount of US\$256,726,000.00 (Two Hundred Fifty-Six Million Seven Hundred Twenty-Six Thousand US Dollars) for the implementation through MCA-Liberia, with the objective to encourage economic growth and reduce poverty in Liberia by addressing the inadequate access to reliable and affordable electricity in the country and the poor quality of road infrastructure. The Compact included (i) funding for the rehabilitation of the Mt. Coffee Hydropower Plant, (ii) development of a training program for technicians in the electricity sector, (iii) supporting the creation of an independent energy sector regulator, (iv) supporting a management services contract for the Liberia Electricity Corporation aimed at improving the delivery of electricity services, and (v) building capacity and strengthening institutions for a cost-effective approach to nationwide road maintenance. This Compact entered into force on January 20, 2016 and had a term of five (5) years with a final date of January 20, 2021.

The terms of the Compact prohibits MCA-Liberia from receiving or accepting any deliverables derived from contracts financed by the Compact after the Compact End Date (January 20, 2021), unless the specific contract stipulates a subsequent date. MCA-Liberia, through this public announcement, therefore informs all contractors, suppliers, service providers, and consultants that MCA-Liberia is precluded from paying for any deliverable received after this date because such payment is not eligible to be paid with Compact funds. MCA-Liberia accordingly strongly encourages its contracting parties to meet the delivery deadlines established in their contracts.

MCA-Liberia takes this opportunity to thank all interested parties for contributing to the success of the Compact.
