**QUESTIONS & ANSWERS**

#	Suppliers' Queries	MCA-Liberia's Response
1	In your request on page 2 number 4, you request that the format in Annex 2 be used in making a quotation, and also the quantity of vehicles is mention, so my question is are we going to multiply the rates by the quantity of vehicles? Or are we to quote for single vehicles for the entire lot? For example, lot 1, are we quoting for a single vehicle in each lot?	<p>The Service Provider needs to provide unit rate per Km and unit rate for each vehicle for a maximum travel of 200Km per day including fuel. The unit rate per day should be multiplied with number of days and number of vehicles in each Lot and the total net price and gross price for each Lot must be provided for the renting of vehicles.</p> <p>As per Clause 3 of RFQ, the Service Providers can quote for all three Lots or any two or anyone.</p>
